

The Lakeshore intersections at Hurontario Street, Stavebank Road and Mississauga Road had the highest number of collisions and the highest collision rates compared to other intersections in the study area. For midblock segments, the segment of Lakeshore Road between Hurontario Street and Rosewood Avenue had the highest collision rate at 0.084 collisions per million vehicles.

The top 12 intersections with the highest number of collisions and / or collision rates are summarized in **Table 7**.

**Table 7: Top Twelve Intersections by Number of Collisions**

Intersection	Total Number of Collisions 2002-2008	Average AADT	Collision Rate (per million vehicles)	Signalized or Unsignalized
Hurontario St & Lakeshore Road	71 collisions	29600	0.939	Sig
Stavebank Rd & Lakeshore Road	41 collisions	32200	0.498	Sig
Mississauga Rd & Lakeshore Road	25 collisions	27000	0.362	Sig
Elizabeth St & Lakeshore Road	20 collisions	27300	0.287	Sig
Seneca Ave & Lakeshore Road	19 collisions	31300	0.238	Unsig
Alexandra Ave & Lakeshore Road	18 collisions	Unknown	n / a	Unsig
Front St & Lakeshore Road	15 collisions	Unknown	n / a	Unsig
Shaw Dr & Lakeshore Road	15 collisions	26900	0.218	Sig
Cumberland Dr & Lakeshore Road	13 collisions	24800	0.205	Sig
Helene St & Lakeshore Road	13 collisions	Unknown	n / a	Unsig
Hiawatha Pkwy / Mohawk Ave & Lakeshore Road	13 collisions	21100	0.241	Sig
Lakefront Promenade & Lakeshore Road	13 collisions	21100	0.241	Sig
